**Service sales conditions**

Broadband Service satellite transmit & receive.

Service operational in Ku-Band on IS-10 at 68,5° East and/or IS-14 at 45° West (see list of the covered countries on our website).

Satellite Broadband service operates from GT&T sa in Belgium.

**Availability on the hub side**

99,6 % for  $10^{-6}$  Ber for the main antenna (clear sky).

99,99 % for  $10^{-12}$  Ber for the fiber.

99,7 % for the satellite in orbit.

**Payment**

Service and Hardware prices are 100% in euro ex-VAT and freight charges. Payment 100% in advance before shipment.

Prices are only available with GT&T hardware 1,2 m type approved dish, 1 Watt BUC and SkyOne-IP modem.

Payment of the service per quarter or year in advance.

All indicated prices are for firm contiguous commitments.

Existing commitment cannot be stopped (*or penalties*).

Alerts are sent automatically each Monday and 10 days before the end of the commitment.

Alerts are sent when the station is blocked.

No L/C or cheque usually accepted, no SGS/Veritas or equivalent control accepted.

Payment only by wire transfer including all bank charges for all acting banks.

Prices and conditions are valid eight (8) days.

**Usage**

The internet access we offer has no restriction.

Spams are not permitted-GT&T can stop this service at any time.

Usage of the internet outside of the Belgian regulation and/or European regulation could be stopped without prior notice and any indemnities.

**Service explanation**

Private Satellite broadband service.

Prepayment platform.

Source from the satellite is transmitted from our the STM-16 fiber backbone and our teleport/Belgium.

Private IP supplied in a fixed range and/or DHCP.

Usage is for consumer & professional for a normal access.

Commissioning is supposed to be done max. 90 days after the goods leave GT&T offices or the pre existing free quota is lost.

Service subscription starts the days after the commissioning.

Self-Commissioning (included in the initial price), manual activation or manual re-activation/commissioning = 300 € excluding Belgian 21 % VAT.

Commissioning or beginning of subscription may be postponed of 1 month (30 days) = 150 €/month (max. 3 x 1 month).

The Broadband subscription is never reimbursed or converted.

If commitment is broken GT&T server/process will apply penalties on the user and /or the modem for 12 months.

All Hardware are supplied fully configured and tested for at least 1 week to avoid any failure.

The V-Sat is supposed to be installed by a V-Sat professional.

The computer set-up is supposed to be installed by professional IT LAN engineer.

The V-Sat installation must be done properly in a clean, dry and well aired place; the installation must be protected against surge & lightning. The antenna must be stable at 0,1°, the grounding must be < 5 Ohm.

All our units are CE/FCC approved and operate on AC power supply 100 Vac up to 240 Vac.

Warranty : 12 months on the hardware (new) [Feed-horn, OMT, modem, LNB, BUC]. Surge, lightning, shock, water, dampness, opening of the equipment, new software or settings loaded, dust, sand or equivalent, insects inside the equipment, vandalism, high temperature as from 35 ° C for IDU and 55° C for ODU, cancel the warranty.

**Services on our SkyOne-IP are regulated by our usual registration and sales conditions**
